

CS580U

Exercise # 1

Deadline Friday Sep 12, 2025, 8:30 AM (See GitHub Submission Instructions Below)

- (1) Write down your first C program “alpahetLetter.c” to print G and H alphabets on your computer screen using “*” such as an F letter using #:

```
#####  
#  
#  
#####  
#  
#  
#
```

- (2) Write a C program to calculate a bike’s average consumption from the given total distance (integer value) travelled (in km) and spent fuel (in liters, float number – 2 decimal points).
- (3) Write a C program that accepts an employee's ID, total worked hours in a month and the amount he received per hour. Print the ID and salary (with two decimal places) of the employee for a particular month.
